About Me

I love traveling, and meeting new people. These passions let me explore new cultures and broaden my horizons. Connecting with diverse individuals enriches my perspective and reinforces my belief in unity through diversity. Plus, they make me a great team player, enhancing my communication and adaptability skills.

Work Experience

Overview

UI/UX Freelance | 2019 - Present

5+ years of experience

100+ projects completed

Apprecial

Associate Product Designer

At Apprecial, an innovative startup dedicated to creating products that simplify people's lives, I worked as an Associate Product Designer. In this role, I focused on designing user interfaces for various products, ensuring they were user-centric and intuitive. I also made sure that all designs were consistent with the company's brand and aligned with its overall vision.

Glimpse

UI/UX Designer

Glimpse is a social platform for NFT enthusiasts. As a UI and UX Designer, my role involved designing intuitive and visually appealing user interfaces while optimizing the overall user experience to enhance engagement and satisfaction.

Work Experience | Continued

Twolf

UI/UX Designer

Twolf is an agency specializing in design and development services for its clients. In my role, I was responsible for overseeing the UI and user experience for various platforms.

This involved close collaboration with developers to ensure that designs were accurately implemented and that the final product met the envisioned standards.

Prismware

UI/UX Designer

Prismware is a service-based agency where I was responsible for designing user interfaces for both apps and websites.

My role involved creating visually appealing and functional designs that met client needs and enhanced user experiences.

peeq

Lead Product Designer

Peeq is a highly confidential, U.S.-based startup with significant growth potential. In my role as Lead Product Designer, I was responsible for creating user-centric and intuitive UI designs with a strong visual appeal.

I ensured a smooth and user-friendly experience by meticulously crafting design elements. Additionally, I worked closely with developers, coordinating task handovers and ensuring that my designs were implemented accurately and as envisioned.
